

Howard County Property Owners

The Howard County Appraisal District Truth in Taxation site can be found by clicking this link: <https://howard.countytaxrates.com/>The local tax database will contain information regarding your property taxes; including information regarding the amount of taxes that each entity that taxes your property will impose if the entity adopts its proposed tax rate.

Truth-in-taxation is a concept embodied in the Texas Constitution that requires local taxing units to make taxpayers aware of tax rate proposals and to afford taxpayers the opportunity to roll back or limit tax increases. Property owners have the right to know about increases in their properties' appraised value and to be notified of the estimated taxes that could result from the new value.

The website allows property owners to provide feedback on the tax rate process and provides the following property-specific information for each taxing unit authorized to levy a tax on the property including:

- Property values
- Proposed tax rates
- An estimate of property taxes that would be imposed under the proposed rates
- Dates and locations of public hearings on the tax rates
- Other useful information on taxing unit budgets, revenue, and rate calculations.
